under a construction contract

Damages in simple terms means the financial harm suffered by one party due to the breach of the contract by the other party. In construction projects, the contractor or the owner of the project usually claims for damages in the following circumstances: change in scope of work, project delays, acceleration related costs, disruption or termination of the project.

Damages Claims in Construction Contract Disputes. | Top ...

Disputes. All the claims mentioned above, if left unsettled and disagreed upon, will cause disputes between the parties involved. Usual means cannot solve these disputes and hence require construction and legal laws. A dispute is "A claim by one party and a refusal thereof by the other party.". Thus a claim without rejection is not a dispute.
