Workbook: Worksheet: 1. Workbook is an excel file containing many worksheets. A worksheet has a single spreadsheet containing data. 2. Workbook cannot be added within the worksheet. Worksheets can be added in a workbook: 3. Workbooks are used to work in a professional environment. Worksheet is preferred in a learning or educational setup.

Differentiate between the workbook and worksheet? - GK Q&A

The meaning behind the letters is: "D" stand for the "dextrorotating" while "L" means "levorotating" molecule. D & L configurations DO NOT ACTUALLY correspond to the rotation of the plane polarized light! This relationship ONLY holds for glyceraldehyde. A D-sugar can be both (+) and (-), likewise, L-sugar can be either as well.

NEET 2023 Syllabus for Chemistry. It is common for students to place minimal focus on preparing for the Chemistry section. This would eventually lead to stress immediately before the exam, which would result in a low score in this part. The NEET Chemistry section carries a weightage of 25% in the NEET test, which should be kept in mind at all ...
