Quick facts: Beware of "miracle chargers"; These are typically marketed as charging your devices from 0% to 100% in a matter of seconds. Here's the truth: 1. They won't prolong your battery life, 2. You won't get that "extra juice", and 3. Charging too fast puts stress on your battery.

How to Properly Charge your Cell Phone Battery | ChargeAll

Cell towers and cell antennas emit a type of non-ionizing radiation called radiofrequency radiation (RFR). European Parliament requested a research report "Health Impact of 5G" released in July 2021 concluding that commonly used RFR frequencies (450 to 6000 MHz) are probably carcinogenic for humans and clearly affect male fertility with possible adverse effects on the [...]

Which iPhone Has The Most Radiation? Here's The Truth!

The soul without the HOLY SPIRIT, is UNABLE to discern TRUTH. Without the covering of the BLOOD of Jesus, we have NO PROTECTION from the enemy. The battle is for our minds, and through our minds to gain control of our spirits. Guard your hearts and minds. Resist the Devil. Seek the Lord while he may be found.

GATEWAY PROJECT - Eye Opening Truth

Panova suggested that relying on cell phones to relieve anxiety may end up undercutting the development of more effective coping skills. But the device itself is not problematic, she said.

Excess Cellphone Use May Mean Anxiety, Depression - WebMD

Updated October 13, 2019. Psychogenic nonepileptic seizures (PNES) are an uncomfortable topic, one that is difficult for both patients and healthcare professionals to discuss and treat. Yet it is estimated that PNES are diagnosed in 20 to 30% of people seen at epilepsy centers for intractable seizures. 1 Moreover, in the general population, the prevalence rate is 2-33 per 100,000, making PNES ...

Robocallers, on the other hand, will disconnect at the silence. If it's a human telemarketer, there will often be a second or two of lag time before the person on the other end begins speaking ...

Here's How Telemarketers Keep Getting Your Number

As you can see, the 2000mAh cell is marked with G5, the 2400 one with G7 and the 2600 one with G8. That's how to tell them apart. There's also another important difference for the 2600mAh cell: it's case does not cover the bottom at all, unlike the 2200 and 2400 ones there it's bent and covers about 1mm of the bottom part.
