A rough-running tractor was felt in the seat of the pants. It invited a climb-down to check the usual suspects: carb adjustments, timing, dirty plugs. We diagnosed and repaired mostly by ear. Today life is much more complicated for owners of modern tractors. Today's modern tractors employ feedback loops to monitor and manage performance.

The Ford N-series tractors were a line of farm tractors produced by Ford between 1939 and 1952, spanning the 9N, 2N, and 8N models.. The 9N was the first American-made production-model tractor to incorporate Harry Ferguson's three-point hitch system, a design still used on most modern tractors today. It was released in October 1939. The 2N, introduced in 1942, was the 9N with some improved ...
