Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. They also take on vital roles of education, assessing situations, as support. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice.

Nursing - Wikipedia

Elements of person-centered care can be seen in the Federal 1987 Nursing Home Reform Act (OBRA '87). OBRA '87 states that each person receives the necessary care and services to attain or maintain the highest practicable physical, mental, and psychosocial well-being, in accordance with the comprehensive assessment and plan of care.
