Handbook of Natural Language Processing - Google Books

The Handbook of Natural Language Processing is a revised edition of an earlier handbook (Dale, Moisl, and Somers 2000). This second edition was prepared by Nitin Indurkha, a researcher at the University of New South Wales, and the late text processing pioneer Fred J. Damerau of the IBM T. J. Watson Research Center (d. 27 January 2009), whose

Natural Language Processing - GREYC

Handbook of Natural Language Processing 1.2.3 Syntactic
Parsing A presupposition in most work in natural language
processing is that the basic unit of meaning analysis is the
sentence: a sentence expresses a proposition, an idea, or a
thought, and says something about some real or imaginary
world.
