Maternal Newborn Nursing Journal

If you are a loyal reader of MCN and other nursing literature, and you are currently practicing in one of the maternal child nursing specialties (perinatal, neonatal, midwifery, pediatrics), I'd like to suggest that some of you could actually contribute to the journal.

MCN: The American Journal of Maternal/Child Nursing

The Journal of Perinatal and Neonatal Nursing (JPNN) is in its fourth decade of making a contribution to the body of literature that is relevant to perinatal and neonatal nursing practice. Research findings continue to underscore that the perinatal and neonatal periods are critical to human health across the lifespan.

The Journal of Perinatal & Neonatal Nursing

MCN, The American Journal of Maternal/Child Nursing, 45 (5):253, September/October 2020. In this special topics series on maternity, neonatal, and pediatric nurse staffing and the nursing work environment, we present four studies that cover challenges of practicing in stressful clinical settings including inadequate nurse staffing and unsafe environments, relative to potential implications for patients and nurses.

However, even in the United States, a high resource country, rates of maternal mortality continue to be a concern, particularly in African American women. Most maternal mortality could be prevented with timely health care, so delays in receiving treatment are an important target for public health interventions to reduce maternal mortality.
