Biology is a single honours degree course taught jointly by the Departments of Plant Sciences and Zoology. Many UK universities offer excellent Biology courses. We firmly believe that we are one of the best, and that we have many features that combine to produce a "value added factor" which is hard to beat.

Undergraduate Study | Department of Biology

Biology is the scientific study of life. It is a natural science with a broad scope but has several unifying themes that tie it together as a single, coherent field. For instance, all organisms are made up of cells that process hereditary information encoded in genes, which can be transmitted to future generations. Another major theme is evolution, which explains the unity and diversity of life.

Biology - Wikipedia

Molecular Biology Cytochrome c is a protein found in mitochondria. It is used in the study of evolutionary relationships because most animals have this protein. Cytochrome c is made of 104 amino acids joined together. Below is a list of the amino acids in part of a cytochrome protein molecule for 9 different animals. Any
