In the past decade, most countries were faced with an increasing number of internet users. In 2009, the Iranian Internet Network Information Center showed that 32 million people had gone online. 1 This number is an indication of the importance of this issue in the lives of Iranians today. With easier access, the Internet has become an integral part of our lives.

### SAQA

Introduction. According to Donald, Lazarus and Lolwana (2002:4) "barriers to learning" refer to any factors, either internal or external to the learner, that cause a hindrance to that person's ability to benefit from schooling. Researchers have found that implementation of inclusive education from policy to practice is often met by many barriers in countries where studies have been ...
