Publisher's Comment: RFID – Far more than just a product. Most, if not all of us are somewhat familiar with the basic concept of RFID (Radio Frequency Identification), often thought of as a smart barcode. Whilst there are some similarities between an RFID tag and a barcode, there are also significant differences.

A total of 1-4 g should be administered with low infusion in 12-24 h (1 g/h), until magnesium levels rise to 1.2 mg/dL. In the case of severe hypomagnesemia, patients should receive a prompt replacement therapy, in order to prevent cardiac arrhythmias and death. A total dose of 4-6 g of magnesium sulfate is usually required in these cases.
