Social stratification, whether by class or caste, plays a significant role in children's educational development and management. The socio-economic status (SES) occupied by a family in a given society impacts their ability to pay for school and school supplies as well as attitudes within the family towards education, especially higher education.

Social Stratification and Mobility: How Socio-Economic ...

Working a minimum wage job introduces new perspectives in an otherwise "sheltered" town such as Westport. For most, working for a mere \$13 an hour is unglamorous and undesirable. So, when I got a job at the Fresh Market in August, I viewed it as just a way to make some extra cash.

Working a minimum wage job illuminates the realities of ...

In addition, students from disadvantaged socio-economic backgrounds are twice as likely to be low performers. Lack of fairness and inclusion can lead to school failure and this means that one in every five young adults on average drop out before completing upper secondary education. Reducing school failure pays off for both society and ...

Equity and Quality in Education - OECD

In North Africa and West Asia, 95 percent of land is rain-fed, and approximately 40 percent of the land in Uzbekistan has been used due to water shortages, causing despoiled fields (Shaumarov and Birner, 2013, Zakaria et al., 2013). Wheat is an important crop in Pakistan due to its widespread use as food (Iqtidar et al., 2006). In Pakistan, 6.35 million hectares of land are irrigated with canal ...
