The Search for the
Giant Squid is a
popular science book
by Richard Ellis on the
biology, history and
mythology of the giant
squid of the genus
Architeuthis. [nb 1] It
was well received upon
release and though
soon rendered
outdated by important
developments in giant
squid research, [2] [3]
it is still considered an

The Search for the Giant Squid - Wikipedia

This documentary
looks at the scientific
efforts to find a live
specimen in nature,
focusing on Dr. Clyde
Roper's project to
attach a "Cittercam"
camera to a sperm
whale (which feeds on
giant squid) in hopes
that the whale will lead
