The Unmaking Engine The World

A game creation system (GCS) is a consumer-targeted game engine and a set of specialized design tools (and sometimes a light scripting language), engineered for the rapid iteration of user-derived video games. Examples include Novashell and Pie in the Sky.. Unlike more developer-oriented game engines, game creation systems promise an easy entry point for novice or hobbyist game designers, with ...

People experience the world by using their bodies, which have different constitutions and are differently located in space and time. (2) First-person vs. third-person knowledge. Individuals have first-personal access to some of their own bodily and mental states, and knowledge about themselves, which differs from third-person knowledge about them.
