Auto Exposure Lock is a camera setting in which the exposure value is locked in (when you're shooting one of the semi-automatic or fully automatic modes, i.e. Shutter-priority). In this mode, no matter what changes there are to the lighting in the scene, the camera locks in the ISO, Shutter, and Aperture settings, so you can

exposure definition:  
Understanding  
photography exposure.

Exposure in  
photography can be  
easily explained as the  
amount of light  
collected by your  
camera.. When the  
light passes through  
the camera lens to the  
camera sensor for a  
determined period of  
time, the amount of  
light that reaches the
